Overview

Experiments and
Results, Part 1

Methods, Part 1

Experiments and
Results, Part 2

Methods, Part 2

Conclusion and
future work

Project Title

Student Name

Overview

- What did you investigate?
- Why is it important?
- What did you focus on specifically w.r.t. neural networks?
- What experiments did you run?
- What did you find?

Methodology, Part 1

- Use text, equations, pictures, etc.

Methodology, Part 2

- Use text, equations, pictures, etc.

Experiments and Results, Part 1

- Provide details, findings, and descriptions

Experiments and Results, Part 2

- Provide details, findings, and descriptions

Summary and Future Work

- Summarize the major jazz (remember, NN centric!)
- What are the limitations?
- What might you try next?
